
Turbines

Posted by Stylmast - 2009/08/12 10:46

Are Ausjet able to supply conter rotating turbines? In the area of 12 Kgs of thrust.

Scott

Hi Scott,

Counter rotating turbines are quite rare, I believe Jet-Cat did a few some time ago for a "project" but that's all I know of.

Cheers,
Smithy.

Smithy, the reason I was asking, I'm talking to a Jet pilot in the USA. His new jet is an F14 Tomcat from Flying eagle. I'm just starting to plan my dream aircraft.

So I guess I would be better off buying counter rotating turbines from the USA..

Will hopefully be buying the aircraft from Aus jets..

Regards

Scott

Hi Scott,

As mentioned, I'm pretty sure Jet-Cat did produce a small number, but I don't believe they are still available. The best person to ask would be Matt on the RCU Jet-Cat turbine clinic:

http://www.rcuniverse.com/forum/forumid_151/tt.htm

Drop him a line, he's very helpfull.

Hope this helps.

Cheers,
Smithy.

Hi Smithy,

Will do. There will be more q's as I go, so thanks..

Cheers

Scott

No problems Scott,

Ask away, that's what I'm here for.

Cheers,
Smithy.
