
Manuals

Posted by rocko - 2008/03/04 19:08

I am currently updating the Manual which comes with our Turbines. This new update will include how to use the supplied mounting straps as well as the M.A.A.A remote shutdown device.

The manual update is almost complete and being reviewed and edited. I am expecting this to be completed before the end of the week. Once it is complete, it will be supplied to all JetJoe turbine purchasers past and present.
